

Resident Parking Scheme in Barley Village

The resident parking scheme in Barley village centre is supported by a **Traffic Regulation Order (TRO)**. The purpose of the TRO is to address significant and obstructive parking issues which have been identified impacting on the residential area of central Barley Village including Barley Lane (C584), Beck Side, Pendle Row, and Pendle View. Various external factors, including local businesses, commercial establishment and tourist parking, remove over half of the normally available parking space for a significant period of time when residents are wishing to park.

The scheme is frequently patrolled by LCC Parking Enforcement Officers.

Areas marked as - - - - below are designated parking areas for residents. There are two areas █ where visitors can park for up to 3 Hours; outside the Chapel & Barley Mow PH.
